PSEAS Mentoring Program

CONTACTS FOR STUDENTS
As a mentor, there will be times when you wish to direct your mentee to the appropriate office at Penn State for assistance. The listing below provides you with a variety of services available to students. Please encourage students to utilize the resources below, but do not interface with these contacts on the student’s behalf.

**Engineering Academic Advising**
If a student has been accepted into an engineering major, an advisor is assigned within the specific department. In addition, each department identifies Undergraduate Advising Coordinators as a department wide contact. For academic questions, mentors should direct students to the advisors:
