THE PENNSYLVANIA STATE UNIVERSITY

University Park, PA

Pursuing Bachelor Degree/Architectural Engineering – Construction Management

Five-Year ABET Accredited Degree

Graduation Date: May 2011

Current GPA: 3.2

RELEVANT COURSEWORK:

- Engineering Mechanics
- Surveying
- MicroCAD Applications
- Building Economics
- Materials Analysis
- Business Management
- Construction Project Management and Controls
- Entrepreneurship and Business Opportunities in Engineering
- Negotiation and Conflict Management

EMPLOYMENT:

BARTON MALOW COMPANY

Orlando, FL

May 2010 through August 2010

Performed Project Engineer duties on a design/build project for Disney's Magic Kingdom. Various tasks included processing submittals and RFIs, document control, coordinating design, procurement, conducting regular field coordination meetings, resolving field issues, and supervising field work. Interfaced with Architects, Engineers, Subcontractors, and Fabricators.

Williamsburg, VA

May 2009 through August 2009

Held an assistant superintendent position at the College of William & Mary School of Education project. Scheduled work, performed pre-inspection testing, and resolved field issues. Also reviewed and processed submittals, performed safety inspections, wrote buyout package scopes, and maintained a quality control log.

FORGINE CONCRETE

Malvern, PA

June 2006 through August 2008

Concrete Finisher. Placed and finished flatwork, ran equipment such as hydrostatically driven trowel machines and laser screeds. Also operated walk-behind saw, cutting control joints in the finished floor, and seal/curing the finished slab. Drove flatbed trucks to accommodate equipment to the jobsite, as well as perform basic maintenance on the machines. Worked on tilt-up walls, footers, and sub-grading as well as stone grading and form work. Performed layout for excavation, walls, structural reinforcing, etc..

Selected Accomplishments

- Dover Air Force Base – Dover, DE – Air freight terminal floors (approx. 250,000 sq. ft.)
- Clinton Honda – Clinton, NJ – three story structural concrete parking garage
- RTIS – Willow Grove, PA – Structural concrete parking garage (approx. 250,000 sq. ft.)

R.A. CERITANO CONCRETE

Exton, PA

June 2003 to June 2006

Concrete Finisher / Field Manager. Supervised daily work assignments and projects at job sites. Coordinated three crews to perform residential and sometimes smaller industrial/commercial concrete jobs. Ran excavation equipment, performed layout for additions, as well as masonry work from concrete block to brick.
