SESSION # 8

INTRODUCTION TO STEEL JOIST PRODUCTS

Presented by

Drew Potts  
Engineering Manager  
The New Columbia Joist Company

&

Kevin W. Smith, E.I.T.  
Staff Designer  
The New Columbia Joist Company

Wednesday, March 15th

Venue: 371 Willard

4:30 p.m - 5:30 p.m

ABSTRACT:

The lecture will discuss short span, long span and joist girder design assumptions. The presenters will also discuss the different methods of fabrication that are utilized to provide economic structural members. This information will be beneficial to those interested in structural design and learning more about steel fabrication.
