

## ENGINEERING POSITION

### DESCRIPTION

ENTACT, LLC has exciting opportunity for an entry level Engineer. We are looking for a motivated, team player with drive and passion to learn; who want to get their hands dirty and learn our industry first hand. Position will be involved with design and management of soil mixing, slurry trench construction, and general earthwork as part of on-site project management teams. Extensive travel throughout the US will be required.

We are seeking candidates with Bachelor of Science degree in Civil Engineering from fully accredited university with emphasis in geotechnical or concrete studies. EIT preferred but not mandatory; path towards PE will be commiserate with job. ACAD and Surveying skills are a definite plus.

### ABOUT ENTACT:

ENTACT creates and implements environmental solutions. Our service elements include Engineering and Technical Services, Regulatory Strategy, and Field Remediation and Construction activities. Established in 1991, ENTACT has been repeatedly named to ENR's "Top 200 Environmental Firms," was ranked in the top 20 with ENR for Environmentally Driven firms for 2008, and was listed on Zweig White's "Hot Firm 2008." ENTACT has successfully completed over 1,700 environmental remediation and construction projects across the nation and in select international locations. ENTACT has 8 regional offices located in Charleston, Chicago, Dallas, Greensboro, Houston, Pittsburgh, Philadelphia and San Francisco.

We offer an excellent compensation package including a team sharing bonus, health plan, 401(k), and much more.
