The mission of Global Engineering Education Programs in the College of Engineering at Penn State is to provide opportunities for engineering students to participate in international educational experiences. The College of Engineering has opportunities for Penn State students to study abroad in a variety of countries, to work abroad in internships and co-ops as part of their education, and to participate in activities on campus which contribute to their global awareness.

**Penn State students have had international experiences in numerous countries, including:**

- Italy
- Germany
- Australia
- United Kingdom
- France
- China
- Spain
- Singapore
- Japan
- Morocco
- Hungary
- New Zealand
- Ireland
- Poland
- Denmark
- Turkey
- Brazil
- Greece
- Canada
- The Netherlands
- Egypt
- Mexico
- Venezuela
- Austria
- Russia
- Kenya
- Thailand
- South Korea
- Belgium
- Chile
- Kazakhstan
- South Africa
- Norway
- Switzerland
- Jamaica
- Tunisia

**Study abroad** programs in engineering are available in many countries and last for a full academic year, a semester, a summer, or a shorter term. They offer a unique opportunity to learn about engineering while developing a global perspective.

**Work abroad** is an exciting way to gain hands-on experience in your field of study while learning about the culture and practices of a new country. International co-op semesters can be arranged with an array of employers who have overseas facilities.

**Internationalization opportunities** allow students to broaden their global perspective, learn foreign languages, study other cultures, and interact with people from around the world while staying on campus.

**Resources available to help you:**

- **Choices of programs** for international experiences in all parts of the world
- **Courses and workshops** to prepare students for international experiences
- **Courses abroad that meet Penn State degree requirements** and enable a timely graduation
- **Help and support** in finding international internship and co-op opportunities
- **International envoys** to provide a student perspective as you decide what program best fits your needs
