

Poster Winners — Penn State Hydrogen Day 2004

First Place: "Mapping the Reactivity of Oxide Surfaces by Computer Modeling" - Elam A. Ledd, Jorge O. Sofo and Carlo G. Pantano

Second Place: "Hydrogen production by the photo-cleavage of water using TiO₂ nanotube arrays" - K. Shankar, G.M Mor, O.K. Varghese

Third Place: "Effective enrichment procedures to accimulate a Microbial Fuel Cell for electricity generation" - Jungrae Kim and Bruce Logan

Honorable Mention: "Electricity generation from animal wastewater using a microbial fuel cell" - Booki Min, Sangeun Oh, Hong Liu, Shaoan Cheng, and Bruce Logan
