Façade and Building Entrance

ERCO

Tesis Recessed floor luminaire

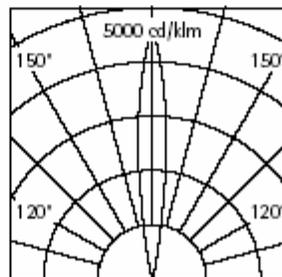

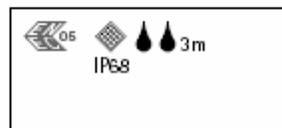

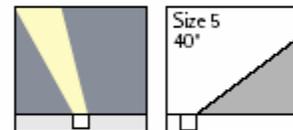

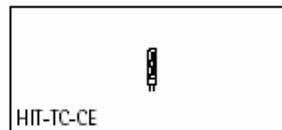

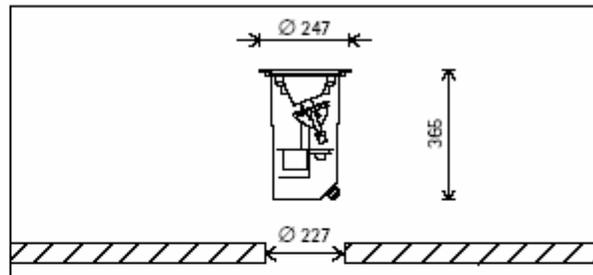

Directional luminaire for metal halide lamps

33718.000
 Reflector colour Silver
 HIT-TC-CE 35W G8.5 3300lm

Product description

Housing: corrosion-resistant cast aluminium, No-rinse surface treatment. Black double powder-coated. Lampholder carrier 0°-20° tilt. Mounting by means of an adjustable bar. Clamp extension up to 35mm. Cable 3x1.5mm², L 1m. Control gear with temperature controller, timed ignitor, capacitor. Darklight reflector: aluminium, silver anodised. Cut-off angle 40°. Without spill light. Screw-mounted cover ring with flush safety glass: corrosion resistant stainless steel. Safety glass: 12mm, clear. Can be driven over by vehicles with pneumatic tyres. Load 44kN. Spot reflector: aluminium, silver anodised. Glass with anti-dazzle cylinder. Surface temperature 70°C. Installation with separate connection sleeve. Protection mode IP68 3m: protection against dust ingress, and continuous immersion up to 3m deep. On site protection must be provided using a residual current circuit breaker, FI<30mA. Weight: 7.30 kg

Product description

Housing: corrosion-resistant cast aluminium, No-rinse surface treatment. Black double powder-coated. Lampholder carrier 0°-20° tilt.

Mounting by means of an adjustable bar. Clamp extension up to 35mm.

Cable 3x1.5mm², L 1m.

Control gear with temperature controller, timed ignitor, capacitor.

Spot reflector: Aluminium, silver anodised. Glass with anti-dazzle cylinder.

Darklight reflector: Aluminium, silver anodised. Cut-off angle 50°. Without spill light.

Screw-mounted cover ring with flush safety glass: corrosion resistant stainless steel.

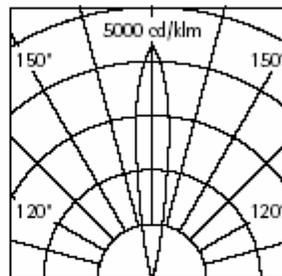

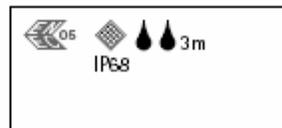

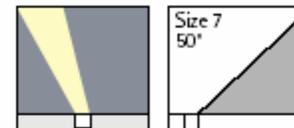

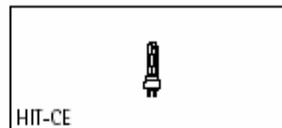

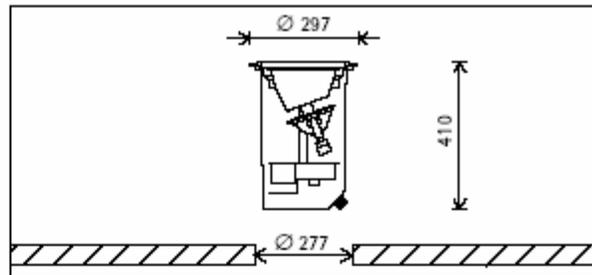

Safety glass: 12mm, clear. Surface temperature 75°C. Can be driven over by vehicles with pneumatic tyres. Load 44kN.

Installation with separate connection sleeve.

Protection mode IP68 3m: protection against dust ingress, and continuous immersion up to 3m deep.

On site protection must be provided using a residual current circuit breaker, FI<30mA.

Weight: 10.20 kg

 www.fxlight.com

EZ•Glass™ is manufactured using heat strengthened borosilicate glass or tempered soda-lime glass with Special FX® EZ•Glass™ coatings. Application will determine glass substrate required. EZ•Glass™ will not shatter from heat, as with standard art glass. EZ•Glass™ is thermal shock resistant and does not need to be cut into strips to allow for heat dissipation or expansion.

Applications

EZ•Glass™ will last years without fading or burning when used according to Special FX® guidelines. EZ•Glass™ can be specified as standard service single pane (dry location) or rough service double pane (wet location).

Substrate

Borosilicate or Tempered soda lime glass.
 1.75-2.2mm thick borosilicate glass up to 10"
 .125" tempered soda lime glass 10" or larger. Sizes to 24"

Color Selection

Any color or combination of colors.
 Standard colors - Specify any color or combination of colors from any theatrical color media.
 Custom colors- Supply color sample.

Specifying EZ•Glass™ for your project

Call Special FX® Lighting to confirm product and color being used on fixture to insure warranty. FAX or email project specifications with fixture information and color. We will review fixture information with the colors chosen and recommend the longest lasting, most cost-effective product for your application.

Specifications for EZ•Glass•HT™ = EZG/size/color media/color number
 Example=EZG 6.25" sq. R 26 (6.25" sq, EZ Glass HT, Rosco 26)

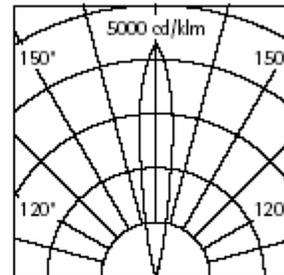

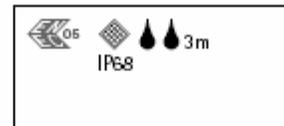

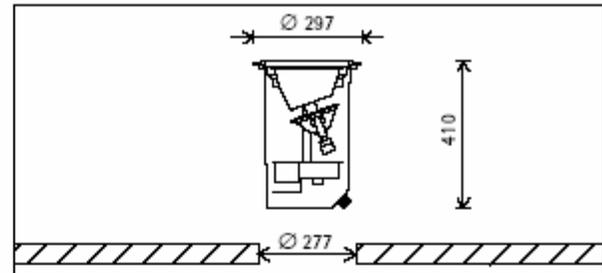

Order Lead time

Standard order lead time for borosilicate glass is two weeks from receipt of order.
 Lead time for tempered glass is approximately four weeks from receipt of order.

Medium-Wide Beam
 5 1/4" Conoid Apertures

Optics and Applications

Ellipsoidal primary reflectors and parabolic shielding cones produce classic symmetrical patterns for general use in corridors, open areas and transient spaces. Recess depths are shallow for limited plenums. Use in medium ceiling heights. Spacing criteria from 1.14 to 1.23.

Design Features

Fixtures accept Philips, Osram Sylvania, GE or other compatible lamps despite the variance in lamp base dimensions. Construction allows easy access to all components. Air flow design lowers fixture temperature for optimal lamp performance. Steel housings protect the reflectors and assure their proper relationship. Maximum ceiling thickness 1 5/8". Ballast and lamp service from below.

Finish

Specular clear Alzak cones are standard. Optional colors and Softglow® finishes are available. Housings and structural parts are painted optical matte black to suppress stray light leaks. Steel parts are phosphate conditioned for corrosion resistance before painting.

Ballasts

Fully electronic, microprocessor controlled with variable starting current for inrush protection to assure rated lamp life. Input voltage ranges from 120V through 277V. Operates multiple wattage interchangeably. Power factor .98, starting temperature 0° F (-18° C), THD < 10%. Pre-heat start < 1.0 second. End of lamp life protection. Rated for > 50,000 starts.

General

Fixtures are pre-wired, UL and C-UL listed for eight wire 75°C branch circuit wiring. Union made IBEW. Luminaire Efficiency Rating (LER) data is in the photometric directory located in Section Z.

Accessories

- F Fuse.
- G Gold cone.
- H Mocha cone.
- P Graphite cone.
- T Titanium cone.
- W Wheat cone.
- Y Pewter cone.
- Z Bronze cone.
- S Softglow® finishes: add S before color letters. e.g. SW for Softglow® wheat cone, SC for Softglow® clear cone.
- DM Dimming ballast. Specify watts and volts.
- EM Emergency power includes integral charger light and test switch visible through aperture. Single lamp operation for 90 minutes. Specify volts.
- WRL Wattage restriction label, specify wattage.
- R2 26" support rails.
- R5 52" support rails.
- WT White trim flange.
- WHT White complete trim.
- V347 347 volt ballast.
- LS Lamp shield, acrylic.
- LP Prism lens, acrylic.
