

Dr. Bruce Fairley

SVP US Operations at Tessella, Altran

Dr. Bruce Fairley heads the US operations of Tessella, Altran's World Class Center for Analytics, and part of the Capgemini Group. Tessella specializes in data-driven innovation in R&D and engineering, with a particular focus on data science and artificial intelligence. The firm has over 40 years of history delivering novel solutions to the most challenging problems in science and engineering, and currently has offices in nine countries. Bruce has been a consultant for almost 20 years, and his experience spans analytics and enterprise software delivery into global organizations across numerous domains, including Life Sciences, in the US and Europe. He holds a PhD in Observational Cosmology from the University of Birmingham, UK and an MPhys in Physics with Astrophysics from the University of Leicester, UK.
